Lakeview Industries Technical Data Sheet

Nitrile

Typical Physical Properties	
Polymer(s)	Nitrile
Hardness	40A – 90A
Tensile Strength	1850 PSI
Elongation	300%
Temperature Range	-30° to +200°F

The above values are typical properties and are provided for information only. They should not be used to set specification requirements. It is up to the end user to determine whether the material is suitable for the intended application.
